## ABOUT

I'm an 18 year old aspiring front end developer. I enjoy taking complex problems and turning them into simple interface designs. I also love coding and always strive to write elegant and efficient code. When I'm not into studies I'm probably involved in singing which is my passion too or other art activities. I love photography, every time my eyes fall onto something which looks different to me it is always captured by me. I'm an enthusiast learner and currently pursuing my graduation (B.TECH. CSE) from Mody University, Lakshmangarh.
